

## PROFILE

Human Sciences Graduate from the University of Oxford. Recently retrained as a Software Engineer. It is my goal to influence my software with my academic background, focusing on human and behavioural driven solutions. I love to create anything and everything from pottery to applications and enjoy experimenting with new technologies.

## EXPERIENCE

### TECH

#### Makers Academy, Software Engineering BootCamp

Aug-Nov 2019

A highly selective London bootcamp focused on best practice and deployable code with TDD, BDD, OOP. Using Agile/Xp work practices and touching a spectrum of languages including: Ruby, Python & Javascript.

Full details on GitHub: <https://github.com/antcliffoc/CV>.
